Abortion Amendment

We **ALREADY** have abortion. This gives Virginia the **least restrictive abortion laws IN THE WORLD** & increases **ABORTION TOURISM** in VA.

Current Law

Dem-Sponsored Bill

Abortion allowed til 3 rd trimester w/restrictions.	Abortion until moment of birth for ANY reason.
Life-saving care.	Babies can be left to die.
Professional Medical standards.	Minimal standards; shields abusers/traffickers.
Parents have right to know about and consent to child's abortion.	Your 14 year-old daughter can have an abortion without you ever knowing.

Gender Ideology HIDDEN in the "Marriage Amendment"

Allows biological men into women's spaces, such as bathrooms; introduces gender ideology; & threatens religious freedom.

Current Law

Dem-Sponsored Bill

Already allows same-sex marriage, in conflict with constitutional language of "man" and "woman".	Definitions of "sex" and "gender" open the door to language conflicting with your constitutional rights.
Freedom of conscience for pastors, businesses, etc.	Requires pastors to do all-gender marriages.

"Restoration" of Felon Rights...

essentially elevates perpetrators over victims.

Current Law

Dem-Sponsored Bill

Political rights restored on a case by case basis.	Rights on release, even if no victim restitution paid.
